

Robert Leser is a jewelry designer who has the gift of being himself, without ever being the same. Thanks to the highly recognizable, expressive, ultra-colourful style he has developed in his **Color Story** brand, Leser has delighted us with countless extraordinary compositions mixing natural stones and fancy coloured, enhanced diamonds. The witty experiments on multicolour combinations issuing from his creative talent, have proved totally entertaining also for consumers, who have gone mad about his flamboyant collections.

Celebrate in Color

The Color Story gemstone palette includes amethyst, peridot, citrine (golden and lemon), iolite, garnet, topaz (sky blue, London blue or white), pink or green tourmaline, smokey quartz, lavender amethyst (French rose) and green amethyst (mint).
